

Project Name

SE 101 Lab Proposal • Hansson Lin, Thomas Kou

Description

Insert description of the project here.

Major Software Components

List the major software components of the project. (e.g. implement LCD user interface)

Prototype Plan

Write a prototype plan as discussed in lecture. (either experimental or evolutionary prototype; which one depends on choice of project and skills available)

Hardware Acquired / To Acquire

List any hardware acquired for the project or any hardware intended to be used.

Challenged Anticipated

List any anticipated challenges in this project. (e.g. when using an LCD screen, we may anticipate the challenge of drawing and moving a complex object)
